

S320e

ONE MACHINE. ANY PACKAGE.

PRODUCE REELEX COILS OR SPOOLS ON A SAFE, SIMPLE AND AFFORDABLE PLATFORM

FLEXIBLE

The S320e allows the user to make reels, spools, REELEX® or linear coils all on one machine.

Bolt-on custom shafts accommodate a variety of spool sizes, and quick-change mandrels allow a wide variety of cable sizes to be wound in REELEX.

SAFE AND SIMPLE

Compared to some other equipment in the industry, the S320e offers an advanced safety profile.

Featuring an ISO standard safety design, physical safety cage, interlocks, and safety PLC, the S320e can be used safely by experienced and novice operators alike.

AFFORDABLE

At \$125,000 USD, S320e offers exceptional capabilities to manufacturers and distributors big and small.

Entry-level pricing combined with advanced capability means one investment offers ultimate flexibility. Attractive leasing options are also available.

REELEX COILING

Quick-release mandrels allow users to change mandrel sizes in less than a minute. Bolt-on spindle shafts allow various spindle diameters to be used for different product types.

SPOOL WINDING

Remove the mandrel spindle shaft and replace with a custom-made shaft accommodating your reel dimensions. Set the traverse width and center via touchscreen and save to a recipe for later use.
