

POD

PAYOFF AND DANCER
ON ONE FRAME

CABLE DELIVERY AND TENSION CONTROL FOR LARGE AND SMALL SUPPLY REELS.

MOTORIZED PAYOFF FOR SUPPLY REEL FEED

The POD is ideal for manufacturers or distributors looking to rewind cable on a variety of supply reel sizes into REELEX or spools. Capable of handling reel diameters from 12 inches (30 cm) to 52 inches (132 cm) and the POD offers versatile, simple, and safe product delivery. High response performance capabilities match the throughput needs of any REELEX or spooling line.

INTEGRATED PAYOFF AND UDA (DANCER) IN A SINGLE UNIT

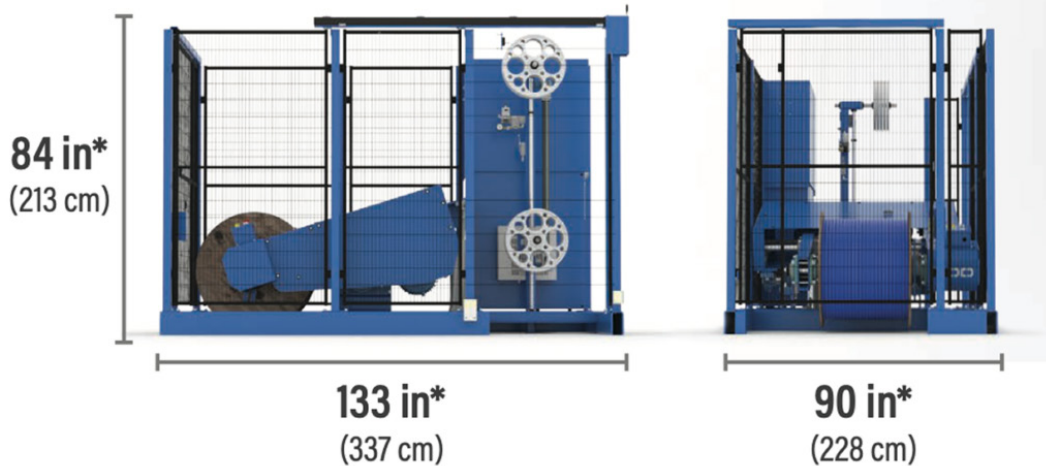

A dancer/accumulator is mounted to the same frame as the motorized payoff, creating a compact footprint with increased performance capabilities, including string up. This dancer features the same gravity-assisted rapid response as other REELEX dancers and offers digital tension control regulation. An accessory plate is available for mounting printers or other equipment.

KEY FEATURES

- ✓ Increased performance
- ✓ Compact footprint
- ✓ Gravity assisted rapid response
- ✓ Dual Channel Safety Devices

INCREASED LEVELS OF SAFETY AND PERFORMANCE

The POD is designed to handle product feed from a supply reel into all REELEX machines or integrated into most any wire packaging line. It includes enhanced levels of safety with integrated safety guarding to prevent operators from accidentally coming into contact with fast-moving components during operations. This is in addition to dual-channel safety devices to control hazardous energy sources and prevent unexpected startup, and systems are designed using ISO best practices and conform to industrial electronics safety requirements.

1,500 ft/min*

457 m/min

MAXIMUM SPEED

*Performance varies by customer application due to supply reel dimensions and weights. Contact REELEX to confirm your application.
