

S320

HIGH PERFORMANCE, SINGLE-SPINDLE COILING MACHINE

OFFLINE FOCUSED

The S320 is ideally suited for rewind-line packaging from a motorized payoff.

FLEXIBILITY

The S320 can quickly and easily change product types even mandrel sizes.

SIMPLICITY

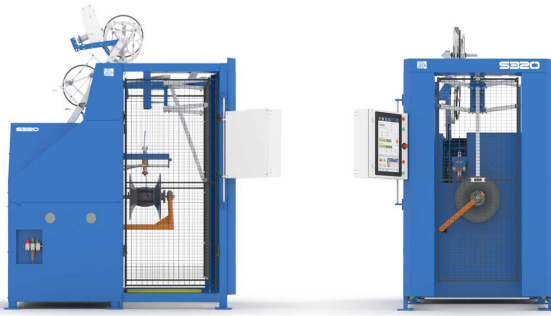

Easily capable of producing a 1,000ft (305m) coil every 60-80 seconds, the S320 is well-suited to a packaging line with a single operator.

KEY FEATURES

- ✓ Manual cut and removal by a single operator
- ✓ Automated safety door
- ✓ Designed to gently handle sensitive products like Cat 6a and fiber optic cables
