

S320e

MULTI-PACKAGE WINDING MACHINE
ONE MACHINE. ANY PACKAGE.

**PRODUCE REELEX COILS OR SPOOLS ON A SAFE, SIMPLE,
AND AFFORDABLE PLATFORM**

SAFE

The S320e is designed from the ground-up with a focus on safety and ease of use. Featuring an ISO standard safety design, physical safety cage, interlocks, and safety PLC, the S320e can be used safely by experienced and novice operators alike.

FLEXIBLE

The S320e allows the user to make reels, spools, REELEX, or linear coils all on one machine via a programmable variable traverse. Bolt-on custom shafts accommodate a variety of spool sizes, and quick-change mandrels allow a wide variety of cable sizes to be wound in REELEX.

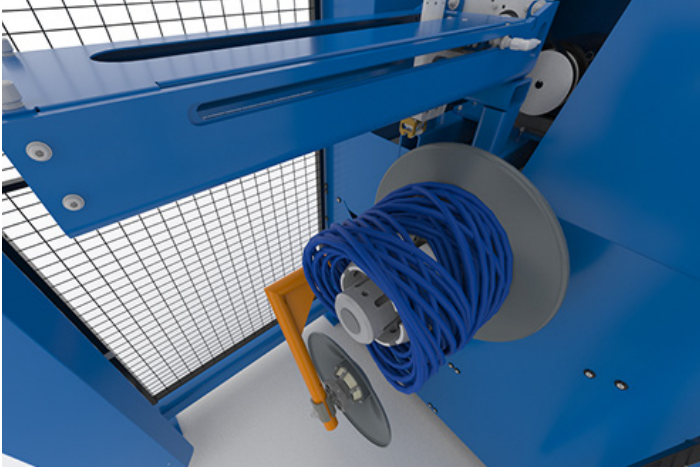

AFFORDABLE

The S320e offers exceptional capabilities to manufacturers and distributors big and small. The S320e is affordably priced with leasing or rental options are available.

KEY FEATURES

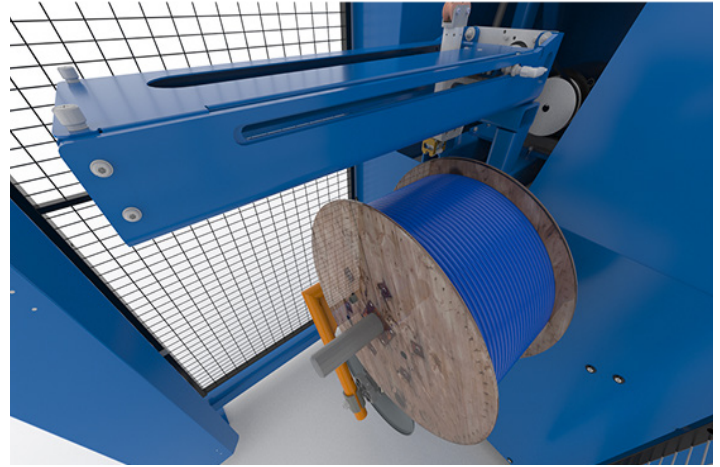

- ✓ Run REELEX coils and spools on one packaging line
- ✓ Automatic safety cage
- ✓ Operator friendly
- ✓ Quick release mandrels

S320e

REELEX COILING

Quick-release mandrels allow users to change mandrel sizes in less than a minute. To switch between REELEX and spools, operators swap shafts quickly and easily. When running REELEX, the operator simply moves the gas shock assisted endform into position. Running spools? Simply leave it out of the way.

SPOOL WINDING

When running spools, the operator simply installs a custom-made shaft built to your spools' dimensions. The traverse is set via touchscreen and the parameters are saved to a recipe for later use. Swapping the traverse program between linear and REELEX patterns is done via a software toggle on the HMI.

PERFORMANCE

In unison with a REELEX motorized payoff and buffer/dancer, a S320e line will run up to 400 feet (122m) per minute.

**60 SPOOLS
PER HOUR**

**20 COILS
PER HOUR**
